# Digital Citizenship

Greater St. Albert Catholic Schools supports effective and innovative uses of technology for each and every student. This support includes a commitment to providing anytime/anywhere learning opportunities and to teach students to be Christian citizens in a digital world. Albert Lacombe staff and students have committed themselves to the Bring Your Own Robust Device pilot project. Many of our DIV 2 students have been bringing in their own devices on a daily basis to enhance and support their daily learning in the classroom. DIV 1 students are also receiving ample exposure to technology. The link below provides resources on how we at GSACRD teach, model and reinforce digital citizenship skills throughout our classrooms to help prepare students for a technology-rich society. You will also find on the website links to resources that you can use at home to help keep your children safe online.

Tracy's application was successful and SEEALS received a \$500 grant from RBC.

Thank you Tracy and RBC.

## Congratulations!

A little heart work goes a long way

For the past 3 years SEEALS has organized a fundraiser with all the proceeds going to the Sign of Hope Society. This year the fundraiser will be our Christmas Bake Sale.

The Sign Of Hope Society is a vital source of funds for the programs that Catholic Social Services offers to 60,000 people each year throughout northeast and central Alberta. These funds are critical to the success of programs and services provided to help people of all faiths and cultures.
