## Tools for the Future! *Kaylee 5/6M*

This year in We Day for Advent, the committee is aiming to collect money and school supplies to support the Reception House. The Reception House is an organization that provides refugees from dangerous places around the world needed things, like homes, food, water, etc. We know they have these things, which is great, but imagine coming to a foreign country, where you aren't used to the weather, language or the way we run things? This is what it's like for the refugees coming to Canada. The things you can do to help are: Pray, donate money for school supplies, make welcome cards, or donate school supplies. Every class has baskets labelled School Supplies. Some supplies you can fill these with are wax crayons, pencil crayons, highlighters, broad-tipped markers, fine-tipped markers, glue sticks, white glue, watercolor paints, headphones, calculators, duotangs, scissors, pens, pencils, oil pastels, pencil box or case or boxes of large Ziploc bags. We want to to donate school supplies because it can cost families \$40-\$50 dollars or even more, and when refugees come to Canada, they, lots of times, don't have enough money. And their kids need to go to school, just like us. So it would be great if each family at Albert Lacombe School could donate \$10 or school supplies. Our goal is to raise \$2500 during Advent! So be BEARS and remember, What Starts Here Changes the World!
